Patient care through
medical leadership
is at the centre of
what we do

about us

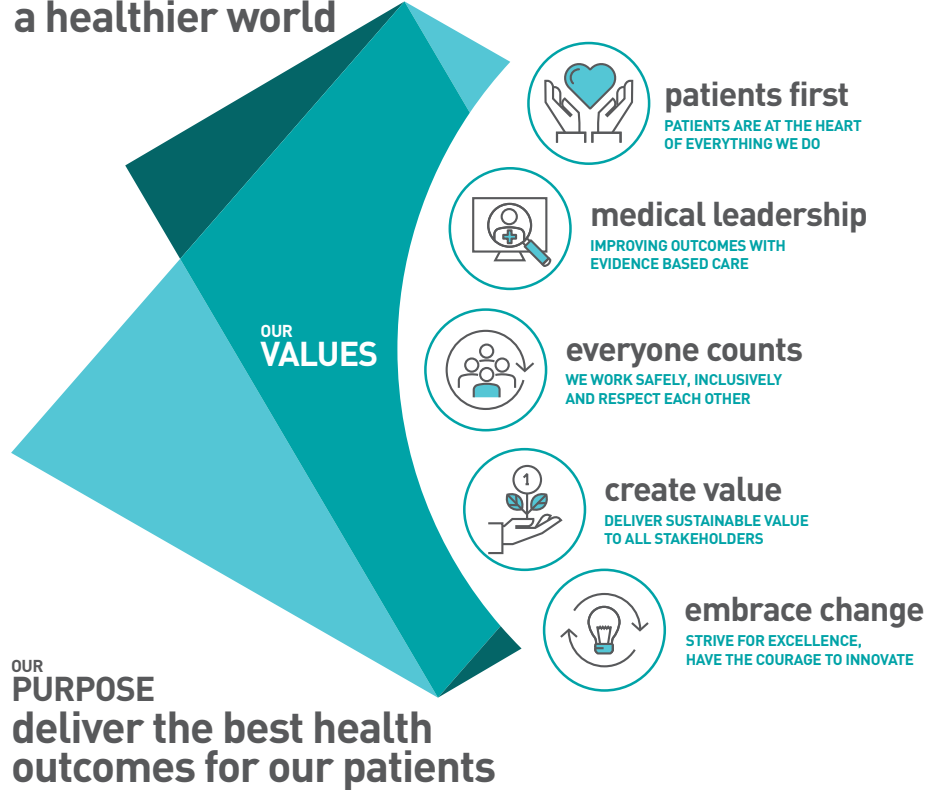

Integral Diagnostics (IDX) provides state of the art diagnostic services to patients and their referrers across Australia and New Zealand.

IDX employs some of Australasia's leading radiologists and diagnostic imaging specialists in a unique medical leadership model that ensures quality patient care, service, and access.

IDX offers holistic career pathways. Professional development. Leadership training. Pathways for radiologists and medical imaging professionals to develop their own career and build a business. Opportunities to grow as a clinician, a leader, to contribute to improving health outcomes in all of our communities. A workplace that is more than a career but a community of like-minded people.

IDX is the employer of choice for you.

OUR VISION a healthier world

locations

our businesses

Imaging Queensland was established in 2011 in the Sunshine Coast and has expanded across Queensland. Imaging Queensland is now a major provider of advanced diagnostic imaging services and radiology education with 17 branches across Queensland.

Imaging Queensland's network comprises of:

- Sunshine Coast Radiology
- Central Queensland Radiology and
- IQ Radiology

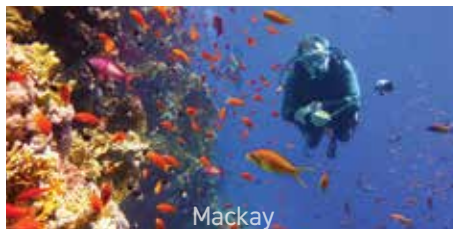

With over 15 years experience providing comprehensive, patient-focused diagnostic imaging services, Sunshine Coast Radiology has seven local practice centres in Nambour, Warana, Maroochydore, the Sunshine Coast Private University Hospital, Buderim and BliBli.

Sunshine Coast Radiology is part of the Imaging Queensland group.

Central Queensland Radiology (CQR) is well recognised for excellence in the provision of quality, patient focussed diagnostic Radiology services for over a decade.

Part of the Imaging Queensland network, Central Queensland Radiology comprises two private radiology practices and six on-site hospital clinics, located across the Central Queensland region.

Since 1967, South Coast Radiology (SCR) has evolved to become the largest radiology group on the Gold Coast, and one of the longest standing radiology organisations in South East Queensland. Healthcare professionals have relied on SCR to provide exceptional medical imaging services and the highest level of patient care to the Tweed, Gold Coast and Darling Downs communities. SCR also operate the only dedicated specialised women's imaging facility.

Mackay Radiology has been providing exceptional medical imaging services and the highest level of patient care to the local community for over 15 years.

Mackay Radiology is part of South Coast Radiology, the largest imaging provider in South East Queensland, and Integral Diagnostics (IDX Group), a leading provider of quality diagnostic imaging throughout Australia.

X-Ray & Imaging is a local diagnostic imaging provider based on the Sunshine Coast. Our service offering includes X-Ray, Ultrasound, CT, MRI, Mammography, Bone Mineral Density, Nuclear Medicine, Cardiac Imaging, Pain Management, and Intervention Procedures. At X-Ray & Imaging, we pride ourselves on being a community-focused, people-first organisation, committed to our patients, referring health professionals and employees.

Astra Radiology was established in 1999, and has 8 branches across Auckland.

We provide patients with a comprehensive, state-of-the-art radiology service, across all diagnostic imaging modalities; MRI, CT, PET CT ultrasound, digital breast tomosynthesis and plain x-rays. Astra has highly trained and qualified professionals to provide ultimate patient care.

Specialist Radiology + MRI was established in 2007. In 2015, SRG expanded to include a clinic on Cavendish Drive in Manukau, New Zealand.

We are a leading radiology practice offering Diagnostic Imaging Services and Interventional Radiology Procedures with fellowship trained radiologists.

Trinity MRI is New Zealand's only imaging facility dedicated to Brain, Spine and Neurovascular imaging.

Our staff are sub-specialty trained, and our equipment has been tailored to ensure the highest quality images.

All our studies are double-read by Neuroradiologists.

We are committed to providing accurate, timely reports.

Horizon Radiology offers a wide range of diagnostic imaging services including; x-rays, ultrasounds, pregnancy scans, and steroid injections.

Horizon is Auckland's largest community based radiology provider with modern clinics geographically spread across the Auckland region.

Based in Auckland, Cone Radiology uses cone beam imaging to enable ENT Specialists, Implant Specialists, Maxillofacial Surgeons, Orthodontists, General Practitioners, Plastic Surgeons and Chiropractors with three-dimensional imaging to use as a critical diagnostic and treatment planning tool.

IDxt are a specialist overflow and after hours teleradiology provider.

We provide teleradiology services to more than 150 hospitals across Australia and New Zealand.

Our industry-leading turnaround times allow patients to get a quick diagnosis and the care they need; at the time they need it.

Providing a quality service supported by RANZCR accredited Radiologists, IDxt offers urgent, routine and overflow teleradiology services.

benefits

Professional Development

Professional Development

- We are committed to the ongoing development of our employees and provide study and conference leave for our employees to meet their continuing professional development (CPD) requirements.
